MEMO TO: SGVCOG Governing Board Members & Alternates

FROM: Tim Spohn, Chairman

DATE: June 8, 2010

SUBJECT: Monthly Report

The following are items of note since the last meeting:

California Transportation Commission – Staff and I provided an ACE project briefing in late May for California Transportation Commission Executive Director Bimla Rhinehart and Deputy Director Maura Twomey. The CTC is the administrative agency responsible for programming and allocating most of the Prop 1B bond funds approved by the voters in November 2006. ACE projects to be funded through the bond measure include the San Gabriel Trench project, programmed for \$336 million, and the Nogales Street project, currently programmed for \$25.6 million. Staff will resubmit an application for funding for the Nogales Street project, as required by recent CTC guidelines for projects that were unable to receive allocations of funds by June 30. ACE staff will continue to work with CTC staff on the allocation of Prop 1B funds for both projects, and will provide updates.

Community Outreach Update – Staff has conducted the following project outreach activities:

- Distributed construction alert notices concerning lanes closures on Sunset Avenue for roadway lowering work;
- Provided staff assistance for ACE project briefing for California Transportation Commission staff; and,
- Conducted ongoing business support program, community outreach and construction coordination activities for the Sunset Ave. grade separation project.
