

LIAISON REPORT SGVCOG Governing Board

The Foothill Extension – Agreements with Metro and Design-Build-Finance Proposals Due in March

In February, staff at the Authority and Metro presented their board members with draft term sheets for the Master Cooperative Agreement (MCA) and Fund Transfer Agreement (FTA) and received feedback. Over the last few weeks, staff from both agencies have been working together to integrate that feedback into the documents and prepare a joint recommendation to the boards for consideration at this month's board meetings.

In March, proposals and qualifications packages for the two design-build-finance procurements are due. Qualification packages for firms interested in being short-listed for the \$440 million Phase 2A Alignment project are due March 23 and proposals are due the next day (March 24) from the six short-listed teams for the Iconic Freeway Structure project.

Finally, this month the Authority will be hosting the final two station sign unveilings, as well as three community open houses to re-educate the community about the project and construction timing.
